Applications

- Retrofit kit for existing outdoor bell-shaped fixtures. QL System includes Lamp, Power Coupler, Generator and Thermal Kit. (Sample required for custom kit)

Specification Features

- Save money by not having to purchase new fixtures
- Proven 100,000 hours rated lamp life
- Instant ON and instant re-strike with back-to-full brightness feature
- CRI >80 White light no color shift, no flickering
- Power factor >.90
- Economic, environment-friendly lighting in situations with long burning hours
- 2-level dimming generator 50% power reducer to save energy during inactive times. Works with 0-10V control and sensor system.
- Programmable motion & daylight sensor with manual override (Special order only)
- Manufactured in the U.S.A.
- Sample fixture must be sent to PowerLux for custom design and fit
- Thermally balanced for each climate
- **Exclusive 10-year QL warranty**

Programmable Occupancy Motion Sensor with Photocell:

- Works with dimming generator that controls up to 50% nominal power and light output to save energy during inactive times.
- Sensor is line powered, switches line voltage and requires no field calibration or sensitivity adjustments
- 360° coverage pattern
- Adjustable time delays
- Operates down to -40° F/C
- UL Listed; Corrosion resistant to moisture
- Made in the U.S.A.
